JAVA DEVELOPER

PROFESSIONAL PROFILE

I am a Java developer with **6 years of experience** delivering clean, scalable, and well-tested software. Skilled in **Spring Boot, SQL/NoSQL, Kafka, RabbitMQ, Docker, and Kubernetes**, I build robust microservices and work confidently with **REST, GraphQL, and WebSockets**. I practice TDD daily using **Groovy/Spock**, and worked extensively on setting up **Grafana dashboards** and system alerting to monitor application health. I take ownership of features end-to-end, focusing on code quality and business value. I support newcomers through onboarding and contribute through code reviews, and work well both independently and as part of a cross-functional **Agile team**.
