MAXIM STEPANOV

JAVA DEVELOPER

PROFESSIONAL PROFILE

I am a professional Java developer with 5 years of commercial experience. I am skilled to deliver good designed, well tested and fully functioned code. I have deep understanding of Java ecosystem and related tech stack such as Spring Boot, SQL/NoSQL dbs, Kafka, Docker and many more. I follow test-driven development on a daily basis. I have an experience with mentoring, code-reviewing other team members. I have strong ability to work independently and as part of a team. I am most comfortable and prefer to work in agile team.
